

Bullying isn't just on the playground

*****SOT*****

Dr. Ari Lakritz [ARR-ee // LACK-ritz], OSF HealthCare clinical psychologist

"The same types of personality dynamics, the same types of biases these individuals hold maybe as a product of the particular generation they grew up in. Any types of biases or beliefs about individuals different than them. Why would those go away just magically as they grow older?" (:16)

Dr. Ari Lakritz [ARR-ee // LACK-ritz], OSF HealthCare psychologist

"A clinician not just reacting to different problems in the facility but proactively speaking with residents at least for a few minutes each day. As well as having a really good referral system set up to psychiatrists, psychologists or another type of clinician if mental health concerns really do become a problem with individuals in that facility." (:22)
