

Transcript of Video-Audio Clip with Dr. John Vozenilek, Vice President and Chief Medical Officer of Jump Simulation Center in Peoria

Vozenilek says collaboration can leverage the expertise among medical providers/leaders and many disciplines of academia

“With this engineering know-how and device development know-how and social science know-how, we’re going to be able to create solutions that are not just good ideas, but are creating great impacts in our communities.” (:10)
